Irrevocably, on demand and without adjudication or other documentation for the justification of the claim to pay to:

Danish Producer Responsibility (DPA)
Vester Farimagsgade 3, 2.
DK-1603 Copenhagen V, Denmark
CVR.nr.: 29028842

An amount of (whole figures without spaces) _____ DKK

say _____

In connection with the registration of the company with DPA this amount is to provide financial security for the payment by the producer, in whole or in part of the below obligations further to The Statutory WEEE Order no. 1276 06-06-2021, Part12.

The guarantee will be released in whole or in part to DPA if:

The producer does not collect the allocated waste from electrical and electronic equipment within the time limits set up in a so-called allocation period.

Term of the guarantee:

The guarantee must be certified no later than 31 August in the year in which the duration of the guarantee begins. The validity of the guarantee, regardless of the certification date, is from and including 1 September of the year of issue up to and including 1 September in the subsequent year – i.e. a full allocation period.

Payment of the guarantee:

DPA-System submits a request for payment under this guarantee by letter to the credit institution and within eight days of reception the requested amount must be available on the account of DPA-System.

Expiry of guarantee:

If a request for payment has not been submitted on the date of expiry DPA-System must return the original guarantee document to the producer.

General:

DPA-System can request the guarantee in whole or in part paid in one or in several successive or unconnected instalments – since the extent of the non-performance may vary and may be of a recurrent nature.

The producer declares by his signature on this guarantee on demand that the producer is not entitled to prevent payments of amounts under the guarantee, and that the producer will not make use of any provisional remedies, including injunctions or attachments in order to prevent payment.

This guarantee shall be governed by Danish law and the agreed venue shall be Danish courts.

By use of foreign credit institutions with a Danish branch the foreign credit institution declares that a Danish court decision has direct enforceable effect towards the credit institution.
